

For Immediate Release:

- PacWest Machinery Announces New Dealership for the Portland, Oregon Market

Seattle, WA (June 29, 2016) – PacWest Machinery, the dealer in the Pacific Northwest for Volvo and other leading brands of construction equipment, has announced the purchase of land and the commencement of construction on their new facility in Portland, Oregon. Beginning in the first quarter of 2017, PacWest Machinery customers in the greater Portland area will be supported and serviced from the new dealership at 19255 NE Sandy Boulevard, Portland, OR, just minutes away from the company's current location.

The new 22,000 square-foot building will sit on approximately six acres and include a 10-bay service center designed to accommodate a full range of equipment. There will be an expanded parts warehouse, modern showroom and state-of-the-art service capabilities. The larger facility will allow the company to stock more equipment as well as host demonstrations and training. This new location will have easy freeway access making it ideal to deliver products into Oregon and Southwest Washington.

"We're investing heavily to meet the needs of a growing customer base," said Jolene Logue, president of PacWest Machinery. "Delivering responsive service requires that we provide our employees the tools, facilities and training to perform at their best." Tim Hurst, the newly appointed PacWest general manager for the Oregon market, added "Our entire Portland team will be excited to unveil this new facility to our customers and the community. Stay-tuned for our grand opening scheduled for the spring of next year."

PacWest Machinery is the newest Volvo Construction Equipment dealer in North America and has responsibility for the sales, rental and aftermarket support for the full line of Volvo's general production, road machinery and compact equipment. In addition, the company supplies equipment from other quality manufacturers including Tymco, GOMACO, Etnyre, Furukawa and others. PacWest Machinery provides equipment and aftermarket services from four facilities located in Portland and Eugene, Oregon and in Seattle and Spokane, Washington, plus additional support from an extensive mobile service fleet. PacWest Machinery is owned by the Joshua Green Corporation and company management.

"We are excited to see PacWest Machinery expand the infrastructure necessary to deliver exceptional customer support," said Göran Lindgren, President, Volvo CE Region Americas. "As we continue to grow our business in North America, investments like this are critical to meeting market demand as well as providing a premium experience the customer expects."
